

AskAgri

Share your data easily

Same questions, again and again.

- **Asked again and again**: Over 70% of farmers and farmer groups submit the same information more than once (2025)
- **No control once it’s sent**: Up to 66% of farmers cite privacy and security concerns about sharing their data (2025)

We want to lower these numbers!

One farm record, built by talking

↓

Talking is the onboarding

The farmer checks data about the farm and can remove anything.

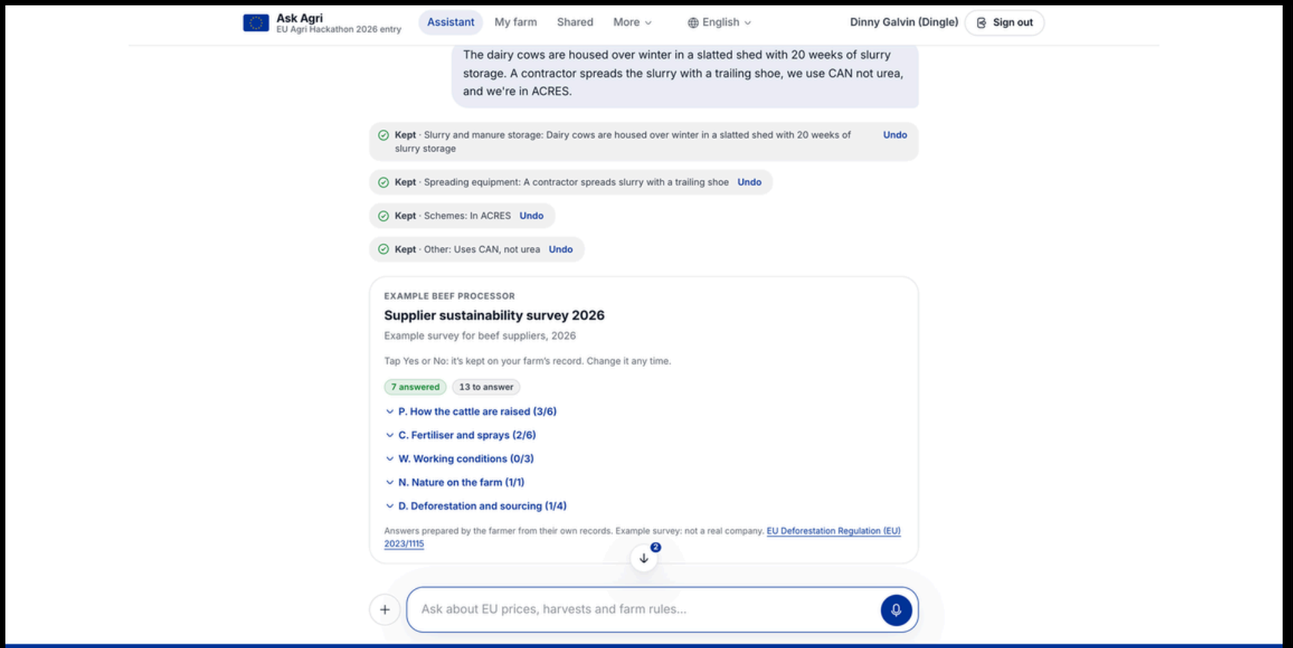

Seán: 22 suckler cows on 38 ha near Athenry

Today

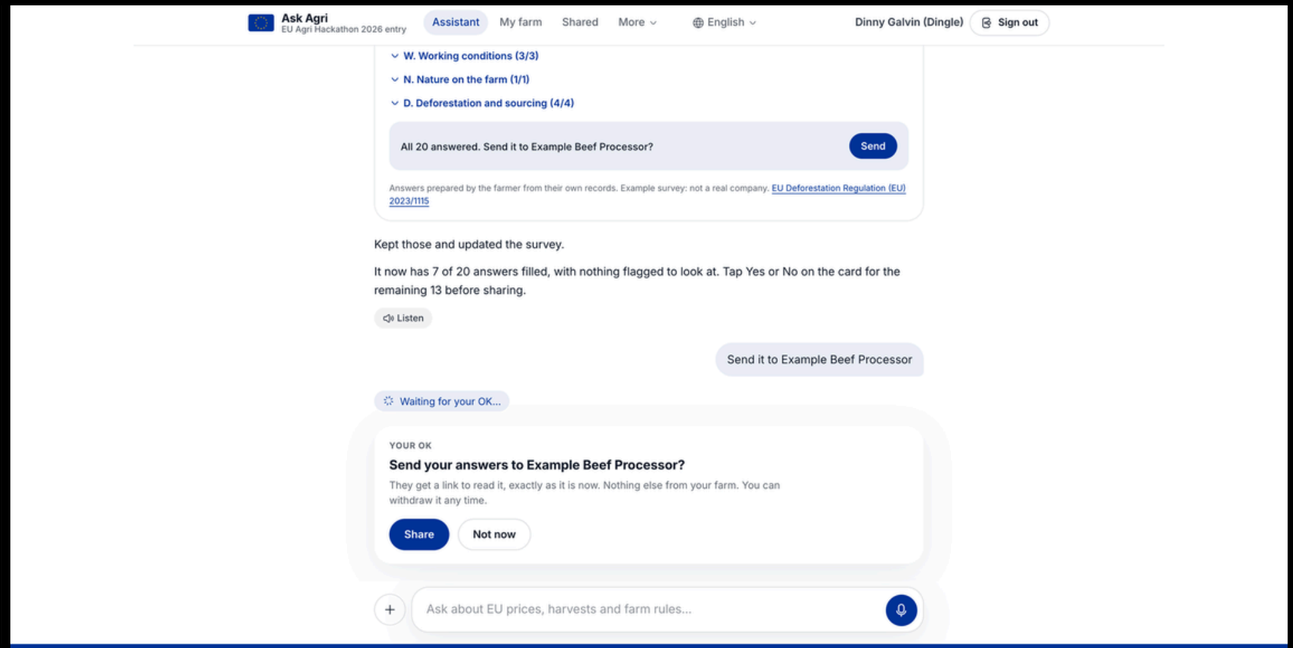

- 19 questions
- Same facts, typed again
- No idea who sees it

With AskAgri

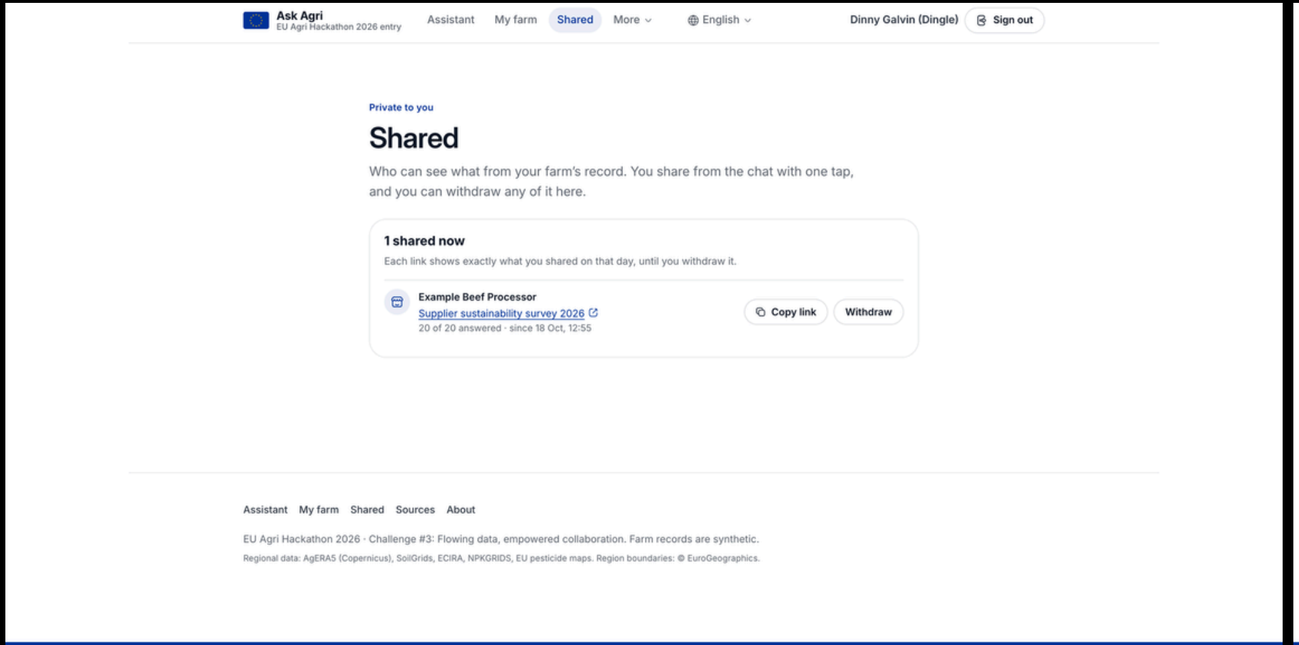

- 8 of 19 filled already
- Problems flagged before sending
- You choose who sees it

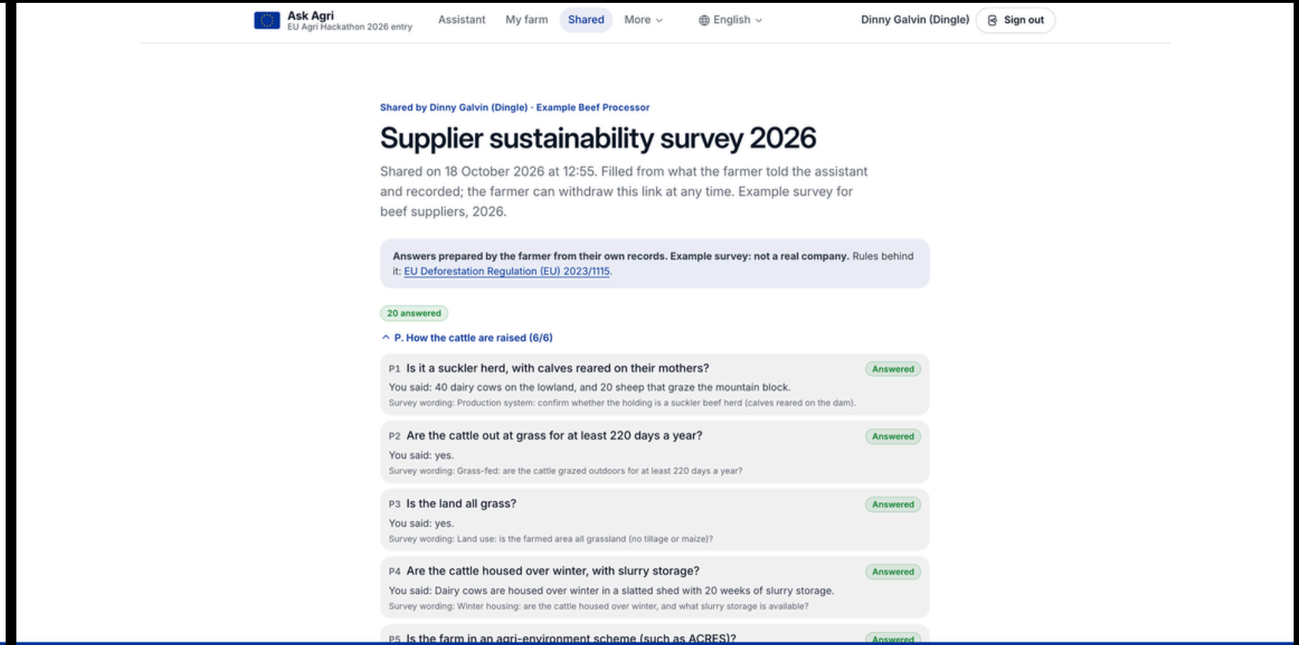

Tell it once: the facts are kept and the survey fills itself

Nothing leaves the farm without the farmer's OK

One page shows who can see what

What the processor sees: the farmer's answers, with their source

Free for farmers

Co-ops

Pay per supplier
For the service, not the data

Public funding

Pays for the pilot
Irish and EU innovation programmes

Data never sold. Farmer decides.

SCALABILITY

Ireland first - about 135,000 farms

EU - 9.1 million farms, about 22,000 cooperatives

Data

EU law in force

Rules answers and
the EU law cards

Irish rules

Closed periods,
derogation, the nitrates
inspection self-check
